 **Bread** 

We mill our own whole-grain flour from grain sourced direct from organic farmers and then bake in a wood-fired oven. We let things ferment for a long time and sneak ancient grains in wherever we can. Ask us about the right bread for you!

Vegan Pizza

Most of the pizza combinations above are just as good without the animal products! We make our own melty, non-plasticky cashew-based mozza and a spicy gluten-based seitan pepperoni. Vegan pizza should not be worse pizza.
